

AVANTHIKA P S

Full-Stack Developer (MERN · Next.js · TypeScript)

Kakkanad, Kochi | psavanthika03@gmail.com | +91 6282570986 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Full-Stack Developer with hands-on experience shipping features and fixes on a live social platform for traders and investors, and building production-deployed, cloud-hosted personal projects. Proficient in MERN, Next.js, and TypeScript, with strong daily fluency in AI-assisted development (Claude, Cursor, Copilot) to ship faster without compromising quality.

KEY HIGHLIGHTS

- Shipped 150+ bug fixes and feature improvements on Fyn Life, a live trading/investing social platform, within the first 2.5 months as a Junior Full Stack Developer.
- Architected and deployed a production-ready Digital Clinic Management System on AWS EC2 with a PostgreSQL (RDS) pharmacy billing module — live, publicly accessible demo.
- Use AI-assisted tools (Claude, Cursor, GitHub Copilot) daily to accelerate debugging, feature delivery, and code review turnaround.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, Tailwind CSS, HTML5, CSS3, Axios

Backend & APIs: Node.js, Express.js, REST API design & integration

Databases: PostgreSQL, MongoDB

Cloud & DevOps: AWS EC2, AWS RDS, Git, GitHub

Other: Python, C, DSA fundamentals

EXPERIENCE

Junior Full Stack Developer — Fynquo Versity, Calicut

May 2025 – Present

Client Project: Fyn Life — www.fyn.life (Live) — social platform for traders/investors: feed, reels, communities & live classes

- Resolved 150+ bug fixes and small feature enhancements across a live social platform, improving stability, UX, and release quality.
- Built interactive admin-side charts to visualize user activity and website reach, giving the team clear insight into engagement and growth.
- Implemented technical SEO (dynamic sitemap.xml, robots.txt) for the SIP blog section and integrated a TipTap rich-text editor into the admin panel for content management.
- Used AI-assisted tools (Claude, Cursor) to accelerate debugging and feature delivery in a fast-paced Agile environment, collaborating via sprint planning and code review.

MERN Stack Developer Intern — Futura Labs, Kochi

Aug 2025 – Jan 2026

- Built reusable, responsive UI components with React.js and Redux Toolkit, improving load performance across feature modules.
- Integrated RESTful API endpoints with Axios, including full error handling and loading states for production UX.

PROJECTS

Digital Clinic Management System — Personal Project

Live Demo

Next.js · TypeScript · Node.js · Express · MongoDB · PostgreSQL · AWS EC2 · AWS RDS · Recharts

- Architected and deployed a production-ready HMS on AWS EC2 with role-based dashboards for admins, doctors, and pharmacy staff, enabling end-to-end clinic workflow management.
- Designed scalable REST APIs for appointment booking/scheduling and built a pharmacy module on PostgreSQL (RDS) for inventory, dispensing, and automated billing.
- Developed an admin revenue dashboard with Recharts (monthly/yearly views), giving clinic owners real-time financial visibility.

EDUCATION

B.Tech in Computer Engineering, APJ Abdul Kalam Technological University (KTU)

2021 – 2025
